The diagram illustrates the first 30 terms of the sequence $1, 1, 2, 3, 5, 8, 13, 21, 34, 55, 89, 144, 233, 377, 610, 987, 1597, 2584, 4181, 6768, 10946, 17713, 28659, 46372, 75091, 121463, 196475, 317838, 514201, 832039, 1346260$. The boxes are arranged in three rows of 10. The first 10 boxes in the first row are highlighted with blue borders, representing the first 10 terms of the sequence.

A horizontal number line starting at 0 and ending at 100. There are major tick marks every 10 units, labeled 0, 10, 20, 30, 40, 50, 60, 70, 80, 90, and 100. Between each major tick mark, there are 9 smaller tick marks, dividing each 10-unit segment into 10 1-unit segments. Below the number line, there are boxes for writing numbers. Each 10-unit segment has a box for the tens digit and a box for the ones digit. For example, between 0 and 10, there is a box for '0' tens and a box for '0' ones. This pattern repeats for all segments up to 100.
