A horizontal row containing six distinct groups of five empty rectangles. Each group is separated by a small gap, and the groups themselves are aligned horizontally. This visual structure is used for organizing problems in a worksheet.

A horizontal row of 20 empty square boxes for writing responses.

?

3

A horizontal row of 20 empty square boxes arranged in four groups of five. This visual representation is used to show the distribution of 20 items or concepts across four distinct categories.
